

Virtual Tutoring Program Information

Thanks for your interest in tutoring! We have a few highly skilled Mentors who manage our private tutoring program. Our tutors are working paramedics with extensive experience such as advanced care, military medicine, and respiratory therapy.

Here's how the program works: when you first become a tutoring client, we conduct a "Needs Assessment" session and develop a customized client tutoring plan for you. Following that, you can book Tutoring Sessions as often as you like for a fixed hourly rate.

Needs Assessment - *Video session with a tutor*

- Tutors will get to know your objectives and areas that you'd like to focus on
- They will go through sample questions and try to assess your knowledge level
- This helps develop a fully customized client tutoring plan for you to review

Pre-Course - *Electronic resources*

- Before each session, we'll send you a bunch of resources to help you prepare
- You'll get access to a Master Your Medics Anatomy & Physiology online course
- These will help you grasp the concepts and lay a solid foundation for the live session

Tutoring Sessions - *2 hour sessions focusing on specific topics*

- You'll book a time to meet with your tutor on Zoom
- They will follow up on the assigned pre-course material and address any confusion / questions
- You'll dive deeper into the topics that were identified in your Needs Assessment
- Tutors will then work through areas that you're having issues with and help you improve
- You can spend time on problem areas, practice questions, core knowledge, or whatever suits you!

The Lead Mentors will always be here as a resource for you as well. We'll be in close contact with all the tutors throughout your training and work with them to develop your tutoring plan. We thank you for trusting us with your education goals and look forward to getting started!

Pricing

<i>Needs Assessment Session</i>	<i>\$100 + HST</i>
<i>Tutoring Sessions (hourly rate)</i>	<i>\$120 + HST</i>
<i>Discounted Rate (for 2 sessions)</i>	<i>\$100 + HST</i>
